

areas that need peer review. Many of the methods and analyses used in this risk evaluation are not novel and have been reviewed in the development of the tools and approaches used in various agency work products or in previous TSCA assessments.

D. What is the topic of the planned SACC peer review?

On September 10, 2025, EPA requested nominations of scientific and technical experts to be considered as *ad hoc* reviewers assisting the SACC with the peer review of the draft risk evaluation of D4 under TSCA (<https://www.epa.gov/chemicals-under-tsca/epa-requests-nominations-peer-reviewers-tsca-risk-evaluation-d4>). These nominations will help the agency in selecting approximately seven to eight *ad hoc* reviewers to assist the SACC with their review. The SACC and *ad hoc* reviewers will provide feedback on novel approaches, unique exposure analyses and other calculations, and selection of key hazard endpoints for D4 as follows:

- Identification of hazards relevant to human health risk assessment.
- Evaluation and use of the D4 physiologically based pharmacokinetic (PBPK) model.
- Handling of uncertainties associated with exposure and release assessments.
- Characterization of bioaccumulation, bioconcentration, biomagnification, and potential trophic transfer.
- Human fish consumption for the general population and potentially exposed or susceptible subpopulations.
- Identification of hazards relevant to ecological risk assessment.

III. Virtual Public Meetings of the SACC

A. What is the purpose of the virtual public meeting(s)?

The purpose of the preparatory meeting is for the SACC to consider and ask questions regarding the scope and clarity of the draft charge questions. The purpose of the peer review meeting is for the SACC to consider, and peer review the draft risk evaluation and technical support documents. These public meetings are part of the SACC's peer review of the Agency's methods and novel analyses for the D4 draft risk evaluation. The agenda for these meetings will be posted in the docket and will also be available through the SACC website.

EPA will consider recommendations from this SACC review and public comments in the development of the TSCA risk evaluations and may inform

other EPA efforts related to the assessment and regulation of the chemical substances. The Agency will be seeking SACC review of its data analyses and methodologies relevant to human health hazard and exposure analyses that have not been previously peer reviewed.

B. How can I participate in the virtual public meetings?

To participate in these virtual public meetings, you must register online to receive the webcast and streaming service meeting links and audio teleconference information for each meeting. Online registration will be available approximately one month prior to the meetings and will remain open through the end of the meetings. To make oral comments during one of these meetings, follow the instructions in this document.

C. How can I access the documents?

The draft risk evaluation, technical support documents, and draft charge questions are available in docket ID: EPA-HQ-OPPT-2025-1610. EPA will include additional meeting background materials as they become available, (e.g., SACC members and the meeting agenda) in the docket and through the Peer Review of the Draft Risk Evaluation for Octamethylcyclotetrasiloxane (D4) website at <https://www.epa.gov/tsca-peer-review/peer-review-draft-risk-evaluation-octamethylcyclotetrasiloxane-d4>.

D. How can I provide comments?

To ensure proper receipt of comments, it is imperative that you identify docket ID: EPA-HQ-OPPT-2025-1610 in the subject line on the first page of your comments and follow the instructions in this document.

1. *Written comments.* Submit written comments by the deadlines set in the **DATES** section of this document and as described in the **ADDRESSES** section of this document.

2. *Oral comments.* To request time to present oral comments during one of the virtual public meetings, you must register online by the deadlines set in the **DATES** section of this document. Oral comments during the peer review meeting are limited to five minutes unless arrangements have been made with the DFO, within the constraints of the meeting agenda, prior to November 21, 2025. In addition, each speaker should submit a written copy of their oral comments and any supporting materials (e.g., presentation slides) to the DFO prior to the meetings for distribution to the SACC by the

deadlines set in the **DATES** section of this document.

IV. Next Steps

After the peer review meeting, the SACC will prepare the meeting minutes and final report document summarizing its recommendations to EPA, which will also be available in the docket and through the SACC website. EPA will consider the SACC recommendations and public comments to complete the risk evaluation and unreasonable risk determinations under TSCA for this chemical substance. Under TSCA, EPA must then initiate risk management actions to address the unreasonable risk it identified.

Authority: 15 U.S.C. 2625(o); 5 U.S.C. 10.

Dated: September 16, 2025.

Nancy B. Beck,

*Principal Deputy Assistant Administrator,
Office of Chemical Safety and Pollution
Prevention.*

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2020-0532, EPA-HQ-OAR-2022-0067, EPA-HQ-OAR-2022-0074, et al.; FRL-12894-01-OAR]

Proposed Information Collection Request; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency is planning to submit the below listed information collection requests (ICRs) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA), 44 U.S.C. 3501-3521. Before doing so, the EPA is soliciting public comments on specific aspects of the proposed ICRs as described below. These are proposed extensions of currently approved ICRs. An Agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Likewise, no person is required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before November 18, 2025.

ADDRESSES: Submit your comments, referencing the Docket ID numbers provided for each item in the text, online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Avenue NW, Washington, DC 20460.

The EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Mr. Muntasir Ali, Sector Policies and Programs Division, (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: Ali.Muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents that explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about EPA's public docket, visit <https://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Burden is defined at 5 CFR 1320.03(b). The EPA will consider the comments received and will amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

General Abstract: For all the listed ICRs in this notice, affected facilities are

required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 60, subpart A; part 61, subpart A; and part 63, subpart A, as well as the applicable specific standards. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

(1) Docket ID Number: EPA-HQ-OAR-2020-0532; NESHAP for Cyanide Chemicals Manufacturing (Renewal); EPA ICR Number 2678.03; OMB Control Number 2060-0739; Expiration date January 31, 2027.

Respondents: Cyanide chemical manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart YY).

Estimated number of respondents: 13.
Frequency of response: Initially, occasionally, annually.

Estimated Annual burden: 169 hours.
Estimated Annual cost: \$17,108, includes \$433 annualized capital or operations & maintenance (O&M) costs.

Changes in Estimates: There is no projected change in burden from the previous ICR.

(2) Docket ID Number: EPA-HQ-OAR-2022-0067; NSPS for Magnetic Tape Coating Facilities (Renewal); EPA ICR Number 1135.15; OMB Control Number 2060-0171; Expiration date June 30, 2027.

Respondents: Magnetic tape coating facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart SSS).

Estimated number of respondents: 4.
Frequency of response: Initially, semiannually, quarterly.

Estimated Annual burden: 811 hours.
Estimated Annual cost: \$132,000, includes \$34,900 annualized capital or O&M costs.

Changes in Estimates: There is no projected change in burden from the previous ICR.

(3) Docket ID Number: EPA-HQ-OAR-2022-0074; NSPS for Secondary Brass and Bronze Production, Primary Copper Smelters, Primary Zinc Smelters, Primary Lead Smelters, Primary Aluminum Reduction Plants, and Ferroalloy Production Facilities (Renewal); EPA ICR Number 1604.14; OMB Control Number 2060-0110; Expiration date June 30, 2027.

Respondents: Secondary brass and bronze production facilities, primary
